- Achieve regulatory compliance while controlling costs
- Improve insurance rates and desirability
- Find relief from compliance burdens
- Gain a tailored, industry-specific compliance plan
- Leverage the knowledge of industry experts
- Work with a partner who promises integrity and unwavering loyalty

WHY OECS?

You get a SAFETY PARTNER

Many companies cannot afford a full-time safety director and trainer or spare the time to constantly watch for updates to compliance regulations. We fill this critical void for you! Let us handle the training, documentation, auditing, research and more.

You get WORLD CLASS SERVICE

Rely on our tremendous experience, certifications, and advanced degrees in all things safety. When someone on your team has a question and needs an answer now, we are here for you – 24/7/365. We have the knowledge and dedication to provide a helpful, fast response!

You AVOID INJURIES & SAVE MONEY

A professional safety expert who knows your team, your business and your risks is critical. Beyond keeping your talented people safe, we prevent downtime, help you get the best insurance rates, mitigate fines with proactive planning and stay right at your side when OSHA shows up at your door.

THE OECS ADVANTAGE

Proven Process with You in Control

Trust a formula for success that has been refined over decades with hundreds of customers like you.

Field-Tested Safety Experts

Leverage years of experience in general industry, manufacturing and construction safety compliance and training.

Accessible 24/7/365

Your safety needs, questions, OSHA visits and accidents aren't pre-scheduled. Get immediate access to a committed professional.

Customized Programs and Trainings

Cookie-cutter, off-the-shelf solutions just don't work. Partner with a company that builds a custom plan to put you in control.
