

Training On Demand:

How a Learning Management System (LMS) Can Help You Achieve Your Safety Goals!

Training on Demand by OECS can give you a foundation for making safety a standard operating procedure. This convenient offering ensures that all employees are trained properly on essential topics. Safety training that's interactive and engaging is a key part to building a strong safety culture!

When training is interesting and customized it can change behavior, so there are fewer preventable incidents and workers compensation claims. Training on Demand virtually pays for itself!

Training on Demand:

- ✓ Provides training to enhance learning
- ✓ Ensures all employees are trained on essential topics
- ✓ Provides critical training for new hires
- ✓ Delivers reports to track training attendance, needs, engagement and possible expiration dates
- ✓ Reduces travel time for out-of-town employees
- ✓ Can provide Spanish content
