

# Virtual Training Solutions

## Workplace Safety Webinar Series

Wednesday, August 10, 2022 – 11 AM to 11:45

[Click Here to Register](#)

Do you struggle with the effectiveness of online training? Or making up a session for an employee who misses training? Do you have a need for Spanish content? How efficient is your new hire training?

*Training on Demand* by OECS can give you a foundation for making safety a standard operating procedure. This convenient virtual offering ensures that all employees are trained properly on essential topics. Safety training that's interactive and engaging has proven to be more effective. Our clients have requested a solution for dull online content. We responded by delivering engaging, interactive and effective online training.

Having an effective virtual learning platform can reduce the stress of trying to make up training sessions for absent employees. Other benefits are that training can be delivered in Spanish and new hire training can easily be accomplished.

In this FREE webinar, we will:

- Discuss what is a Learning Management System (LMS)
- Explore OECS virtual training solutions
- Talk about managing HR forms & company memos
- View reporting & completion status
- Show how easy training recordkeeping can be

Join us to learn how LMS can increase your training success!

### THE SPEAKERS:

**Jennifer Erickson, ASP**, is a Field Safety Associate and LMS Lead. She is responsible for implementing and overseeing the OECS Learning Management System (LMS) while providing safety services to clients throughout North Dakota and Minnesota. She has worked within the construction industry for 12 years, with both residential and commercial construction. Jennifer has her ASP through the Board of Certified Safety Professionals and is a member of the National Association of Women in Construction Fargo-Moorhead Chapter. She currently serves as Treasurer of the chapter and the regional chair for the Safety and OSHA Alliance Committee.

**Kelli Chromey, Ph.D.**, is an e-Learning Developer and LMS Coordinator for OECS. In her coordinator role she assists clients by providing reports, managing LMS users and answering client questions regarding LMS. In addition to her coordinator position, she creates e-Learning for many different safety topics which offers a more interactive and engaging learning opportunity.
