

What to Expect From an OSHA Inspection

Workplace Safety Webinar Series

Thursday, November 14, 2024 – 11:00 am to 12:00 pm

[Click Here to Register](#)

Decades in the safety business have shown us that most companies are NOT PREPARED for an OSHA inspection. Amidst the challenges of keeping workers safe, increasing regulatory compliance has added another layer of complexity to managing safety in the workplace.

OSHA is continually increasing the number of compliance safety and health officers, leading to a record number of inspections at all types of workplaces.

What if a compliance officer visits your workplace? Are you prepared? Inspections can happen at any time with no warning.

This free webinar will help you be better prepared and knowledgeable for an OSHA inspection.

In this FREE webinar, you will:

- Understand the process of an OSHA inspection.
- Explain the difference between programmed, complaint, referral, Special Emphasis and fatality/incident inspections.
- Learn how to create a safety plan to be properly prepared.
- Identify what to communicate to your leadership team and key employees.
- Review recent MN OSHA penalty increases.
- Q & A.

THE SPEAKERS :

Bob Williams is a Regional Safety Lead specializing in Construction for the Twin Cities Region. He spent the past 22 years in safety management, working with MN OSHA Consultation; Site Safety Coordinator; and 8 years as a Safety Director for a general contractor and an electrical contractor. Bob's experience has been in writing programs, building safety cultures, building relationships, incident/accident investigations, educating management and field personnel.

Danny Hoffman is a Regional Safety Manager for the Northern Minnesota and Wisconsin Region. Danny successfully transitioned to OECS after serving active-duty military in the Minnesota Army National Guard for 31 years. Danny has 23 years of institutional safety knowledge with successful process improvements in the general industry, transportation and OSHA related sectors. His work history includes a diversified background that includes experience in sales, safety, training, logistics and operations.
