OECS can assist your company with MNOSHA's Ergonomics Standard:

- On-Site Safety Survey using AI Ergonomics Assessment Tool
- Program Development
- Employee Training
- Ergonomics Solutions

What is the most costly workplace safety problem?

Musculoskeletal disorders (MSDs) are one of the most prevalent and costly safety and health problems in the workplace today. The cost is not just dollars, but also time and pain. MSDs can be prevented by conducting ergonomic assessments and implementing safety improvement solutions.

Ergonomic grant funding is available!

The Ergonomic Safety Grant Program provides matching funds, up to \$10,000, for qualifying employers to make ergonomic improvements recommended by an on-site safety survey.

Are you compliant with ergonomics laws?

In 2023, the Minnesota Legislature passed Statutes § 182.677, Ergonomics. All warehouse distribution centers, meatpacking and poultry processing plants and healthcare facilities with 100 or more employees must comply.
